Sealant & Adhesive Supply Systems

MINIMIZE MAINTENANCE & STREAMLINE OPERATIONS

Because Graco Supply Systems are engineered and built with high-quality parts, you reduce maintenance time, maximize uptime, and benefit from longer equipment life.

Advanced, Intuitive Controls—The Rules Have Changed

Tandem Display Module

The Tandem Display Module allows you to configure your supply systems to operate in tandem for better productivity and improved uptime.

DataTrak Control

Graco Supply Systems are available with DataTrak, and "intelligent" integrated electronic monitoring system. DataTrak puts you in control.

Fluid Control Module

Graco's user display and fluid control module allow you to monitor and control critical process variables.

Integrated Air Controls

- Modular design
- One convenient, easy-to-use location
- One-touch blow-off provides easy drum replacement
- Optional two-button interlock

The electronic controls on Graco Supply Systems help you monitor and control critical factors through an easy-to-use interface.

THE MOST COMPETITIVE PRICING ON FINISHING EQUIPMENT & SPARE PARTS

Hot Melt Systems & Applicators

Therm-O-Flow Bulk Unloaders

InvisiPac Tank Free Delivery System

Heated Fluid Regulator

Provides precision dispense for Therm-O-Flow Systems. Maintains fluid pressure for consistent bead control of sealants and viscous materials.

PCF Metering System

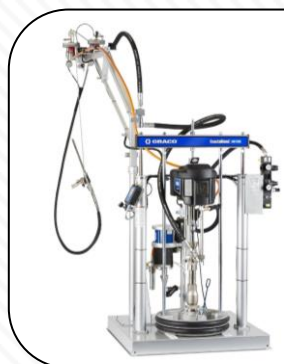

Precision Continuous Flow Metering and Dispense System. Advanced closed-loop technology assures a precise, continuous flow of material.

PGM Metering System

Precision gear metering and dispense system for superior bead control.

Advanced Glazing Proportioner

The Graco ExactaBlend™ AGP (Advanced Glazing Proportioner) provides on-ratio dispensing of two-component sealants and adhesives for curtainwall, insulating glass and other applications. The variable ratio ExactaBlend AGP offers advanced technologies at an affordable price.

Typical Materials:

- Silicones
- Urethanes
- Polysulfides

Typical Applications:

- Insulating glass sealant
- Structural glazing for curtainwall
- Window glazing or back bedding
- Cartridge fill
- Specialty glass
